

Get Cooking For Good This Christmas!

Festive Food Invention Challenge

This Christmas, why not bring your team together to make a difference?

FoodCycle's festive themed Ready, Steady, Cook! inspired challenge tasks your team to create delicious festive meals from surplus food, using team work and creativity.

How it works:

FoodCycle will source surplus produce and your team will be challenged to create 3-course meals for local shelters supporting those experiencing homelessness.

Food Invention Challenges are held in the state-of the-art Mission Kitchen at The Food Exchange, located in New Covent Garden Market, Vauxhall, London and in Liquid Kitchen in Central Birmingham.

Tinsel, Tunes, and Team Spirit!

During the event we aim to bring festive joy and fun! This involves special festive ingredients and lots of cheesy Christmas songs. This is a great opportunity to challenge your team to wear their most dazzling festive jumpers or costumes

For a small additional cost, we can provide a glass of fizz for your team members to enjoy whilst they take part in the challenge!
